Dear Admin Team,

After careful consideration of your request letter, we have decided that we can extend the empanelment on cash payment basis with CGHS rates wherein your patient can settle their bill in the hospital paying cash and can take a reimbursement from your office.

At this moment are not keen on a cashless empanelment as neither have we generated much revenue out of this association if we look into the accounts of the past two financial years, nor are we keen on burdening ourselves with a credit risk at this point. Hence we can continue the association on cash payment basis.

Warm Regards,

Sulagno Basu
